DETAILED ACTION

Allowable Subject Matter

Applicant's response filed 7 March 2008 has been fully considered and is persuasive. Claims 1-24 are allowed in view of the prior art of record.

Claim Rejections - 35 USC § 102

Applicant's amendment has overcome the rejection of claims 3, 4, 7, 9-12, 15, 17-19, 22, and 24 under 35 U.S.C. § 102(e) as anticipated by Hill(6,819,434). See pages 10-13 of Applicant's remarks.

Claim Rejections - 35 USC § 103

Applicant's amendment has overcome the rejection of claims 8, 16, and 23 under 35 U.S.C. § 103(a) as unpatentable over Hill(6,819,434). See page 14 of Applicant's remarks.

Applicant's amendment has overcome the rejection of claims 5, 6, 13, 14, 20, and 21 under 35 U.S.C. § 103(a) as unpatentable over Hill(6,819,434) in view of Loopstra et al(6,020,964). See page 14 of Applicant's remarks.

The following is an examiner's statement of reasons for allowance:

With regard to claims 1 and 2, see the Examiner's statement of allowable subject matter in the non-final rejection dated 2 January 2008.

With regard to claim 3, the prior art of record fails to teach a beam generator comprising a beam-splitter block having a beam-splitting surface, wherein said beam-splitting surface is splits a first beam into a first measuring beam and a first

reference beam, and wherein said beam-splitting surface splits a second beam into a second measuring beam and a second reference beam; in combination with the remaining limitations of claim 3. Claims 4-9 are dependent from claim 3 and therefor also include the allowed subject matter.

With regard to claim 10, the prior art of record fails to teach a beam-splitter which splits a beam associated with said plane mirror interferometer system and a beam associated with said differential plane mirror interferometer system into respective measuring beams and respective reference beams; in combination with the remaining limitations of claim 10.

With regard to claim 11, the prior art of record fails to teach a beam generator comprising a beam-splitter block having a beam-splitting surface, wherein said beam-splitting surface splits a first beam into a first measuring beam and a first reference beam, and wherein said beam-splitting surface splits a second beam into a second measuring beam and a second reference beam; in combination with the remaining limitations of claim 11. Claims 12-17 are dependent from claim 11 and therefor also include the allowed subject matter.

With regard to claim 18, the prior art of record fails to teach the steps of using a beam-splitting surface of a beam-splitter block in order to split a first beam into a first measuring beam and a first reference beam and split a second beam into a second measuring beam and a second reference beam; in combination with the

remaining limitations of claim 18. Claims 19-24 are dependent from claim 18 and therefor also include the allowed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
